About ITI World Investment Group Inc.

ITI World Investment Group Inc. is an Investment Holding Company that owns part, all, or a majority of other companies' outstanding stock. ITI presently holds a 100% equity interest in First Choice Products Inc. (www.firstchoiceproductsinc.com), which is in the business of design, patent acquisitions and manufacture of a variety of innovative products. First Choice Products' primary focus is presently in the marketing and sales of existing product lines already developed. Investment Holding companies allow the reduction of risk for the share owners and can allow for the ownership and control of a number of different companies. In the U.S., 80% or more of voting stock must be owned before tax consolidation benefits such as tax-free dividends can be claimed.

The business strategy of ITI World Investment Group is to assist new companies in developing a market for their products and preparing them to complete an Initial Public Offering (IPO) and trade their shares on a recognized Stock Exchange. When this is achieved, the shareholders of ITI World Investment Group Inc. receive a free dividend of a possible one share (or determined percentage of a share) for each share owned.
